Project: Part II

1. **Homepage:** The homepage will introduce the user to the information offered on the
   website through the navigation bar. It will also have a short "About us" section; so that
   they become acquainted with the website.

2. **DIY-It:** The DIY, or Do It Yourself, page will contain tutorials to create décor as well as
   tips to improve existing objects within the user's home space to avoid breaking the bank.

3. **Tidy Up:** The Tidy-Up page provides the user with tips on how to distribute space and
   get organized to create their desire environment.

4. **Deal of the day:** The Deal of the Day page will be a list article of favorable décor,
   products, and furniture finds that will help the user save money while achieving their
   desired home.

5. **Newsletter:** On the Newsletter page, the user can fill in a form with their email and
   receive notifications about new posts on the website
